01. ST. NORBERT R.C. HIGH SCHOOL

The School was started with just 33 children and a staff. Now it has grown marginally well and *there are 599 Students and 21 teaching and non-teaching staff*. In every class there are two sections each A. and B, however in 9th standard we have altogether 152 students and therefore we have divided the classes into three sections called A.B. and C. The children studying in this school are coming from villages after completing their primary education in their village government schools and therefore they are very poor in studies, but after joining in our school by our great effort they are made to study well and come up in the end of the year with good results. Still we make all attempts to make our children to excel not only in education but also in all other extracurricular activities. And we slowly equip our school with all necessary things.

We, the Head Master, staff, students and the correspondent of the school are very grateful for your generous support to our school at Thiruvetriyur. From the start to till today, your aim is to give good education to the very poor dalits who need to shine in our society. With your financial support, we have opened the school from 6th to 10th class to provide good education and guidelines to them to involve effectively in the development of the society. Last 11 years, we have worked hard and brought good awareness among the poor about the necessity & importance of the education. Now their eyes have opened and very eager to educate their children in the schools. Most of their children are received admission in the primary to higher secondary schools and working hard for their better future life.

02. ST.NORBERT R.C HIGH SCHOOL AND MISSIE.PROCUUR

St.Norbert R.C. High School, Thiruvetriyur is self financed and it is totally supported by Missie Procuur, Holland. The members of the M.P make a visit to the school once in a six months and support us financially and morally to run the school in a better way. Five years back seeing the economic background of the children we requested the Missie Procuur team to support some poor children to buy bi-cycles to those who come from far away and unable to buy a cycle of their own. They were kind enough to agree and helped since then. Likewise this year to we requested for few Cycles and the money was sent for the same. We utilized them to buy 13 cycles and distributed to the worthy students.

05. SINCERE THANKS

Dear Mrs.Joke, Members of Missieprocuur, we are very grateful for your constant support for the growth of our school at Thiruvetriyur. As you know very well that our school staffs are working very hard to provide good education to the poor in our mission. We did receive the amount you have sent to provide cycles to the poor students who come from far away to School. We utilized the money to buy 13 cycles (girls-6 boys 7) it varies in size like big cycles, small cycles and ladies cycles. These cycles were given away to the beneficiaries. We advised the children to use it better for their educational developments. On behalf of the Students (beneficiaries) Staff, and Norbertine Community, at Thiruvetriyur I express our **heartfelt and grateful thanks to you, to all the members, the Netherlands**

Your's sincerely
